

State Office: Assembly District: 69

Candidate name: Timothy Swiggum

Address: 739 E. 7th St. Owen Wi. 54460

Phone number: (715)229-2665 Web: swiggumforassembly@verizon.net

Questionnaire

1. As a legislator, what are the three issues you will prioritize in the next legislative session?

High cost of Health insurance, Funding formula for education, Campaign finance and Government Ethics

2. Studies indicate that one in four Wisconsinites have diagnosable mental illness and would benefit from effective treatment. In addition, mental illness is the leading cause of disability for working age adults in the United States. People often can not access effective treatment, frequently citing affordability as a barrier. What will you do as a legislator to increase access to effective treatment and community services?

Although Healthy Wisconsin is not perfect, it is very close to bringing affordable , quality care to most everyone regardless of pre-existing conditions.

3. Poverty is a reality for many people with disabilities in Wisconsin. Consider these facts, from the American Association of People with Disabilities.

- 27.5% of people with disabilities aged 18-64 live below the poverty line.
- The unemployment rate for people with disabilities is three times higher than for people without disabilities.
- The SSI supplement for Wisconsinites with disabilities has not increased in over ten years.

As a legislator, what will you do to address poverty for people with disabilities?

I believe that within a workable state budget, money should be set aside to increase benefits over time to help those with disabilities living in poverty. It is sad that money cannot be made available to those who are not able to provide for themselves.

4. One of your constituents contacts you. She is a 68 year old woman whose 70 year old husband has just had a stroke and is now in a nursing home. They have a 46 year old daughter with cerebral palsy who has always lived at home.

Up until now, the family has been providing their daughter's personal care as well as help with mobility and transfers, for example in and out of the bathtub. Now with dad in the nursing home, mom cannot care for their daughter alone. The family is covered by Medicare and the daughter is Medicaid eligible.

All the family's available resources have been expended through caring for their daughter and dad's nursing home costs. Your constituent needs help to provide the assistance her daughter needs and she does not know where to turn. Please describe how you would handle this situation as a legislator and what specific steps you would take to assist this constituent.

Not knowing the system at this time, I would assume that a call to Social Services would send me in the right direction. I would continue along the process until the situation is remedied. I believe that personal care in helping people solve problems is important and turning away would not be an option.

5. Do you support expansion of Family Care statewide? Why or why not? If you support other initiatives to increase options for people with disabilities to live in the community, which ones and why do you support them?

I am not fully versed on the options available but I do believe that we all deserve a decent family situation that we can feel content with.

6. A constituent in your district who is attending high school plans to attend college in the near future. Her high school offers college prep courses and other extra-curricular activities after school. Counselors often recommend that students participate in these activities to make their college applications stronger and to inform them about options and resources they have when it comes to making a decision to attend college.

Your constituent has a physical disability and uses a wheelchair. She is not able to drive or take public transportation. Her high school does not offer accessible transportation for these after-school programs.

This constituent would like her college application to be competitive with students who can participate in these programs. How would you respond if she called to request your assistance?

I would use the resources at my disposal to find help for her. I believe that she would be best served by a counselor to find a productive career that fits her abilities. I feel strongly that she has the right to try to make her life as fulfilling as possible.

7. The 2000 census showed that approximately one in every 6¹/₂ Wisconsin residents has a disability. As a legislator, what specific steps will you take in order to reach out to the disability community and ensure you are proactively meeting the needs of this constituency?

I have met several in the area that are working and able to enjoy a private life on their own. I have never been one to turn away and know that in many ways that they want to be treated like anyone else. I have several friends that are disabled and I always show them the respect they deserve and I feel good when they remember me and are happy to visit. I know that the different levels of disability make it difficult for a one size fits all answer.
