If you always need to vote absentee...

Indefinitely Confined Voters:

If a voter has a hard time getting to the polls on Election Day due to age, illness, infirmity, or disability, they may request an absentee ballot for every election and certify that they are "indefinitely confined because of age, illness, infirmity, or disability".

Indefinitely confined voters are not required to provide a Photo ID when voting by absentee ballot. The prove their identify by providing proof of residence when registering to vote, and the witness also confirms their voter's identity.

If they vote in person, they must present a Photo ID.

- Indefinitely confined voters will continue to receive a ballot until they stop returning it.
- It is up to the voter to determine if they are indefinitely confined. It is not a medical diagnosis.

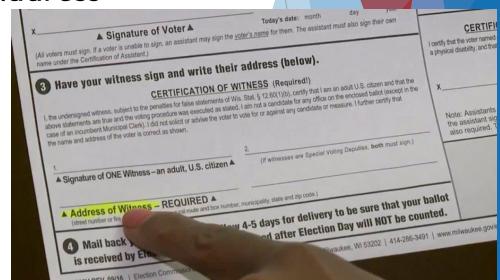

What is the absentee ballot witness supposed to do?

- Verify that you completed the absentee ballot but cannot tell you who or what to vote for.
- ➤ The witness should see you complete your ballot but should not see the choices you make on your ballot.

Sign the certificate envelope on the line marked "Signature of Witness" and write their **full** address

underneath the witness signature.

➤ You (or your assistant) must sign and date the certificate on the return envelope on the line marked "Signature of Voter".

Who can I get to sign as my witness?

- ► Must be a US citizen, over age 18.
- ► Can be friend, spouse, neighbor, family member, care worker.
- Some communities offer drop off locations and may have staff to witness your ballot.
- Contact your clerk if you're have trouble finding a witness.

Updates on absentee voting

- ➤ Carefully follow the instructions for completing your absentee ballot and the certificate envelope. Make sure your witness signs their name and records their complete address. There is disagreement over what an address must include.
- Clerks are no longer able to correct missing or incomplete witness address information.
- Drop boxes are no longer an option for returning your absentee ballot, due to a July court ruling in the Teigen v. WEC case.
- ▶ **Reminder:** Your municipal clerk must have your ballot by 8 PM on election day for your vote to count. Locations for returning your absentee ballot vary by municipality.

For more information, contact your clerk. Find their contact information here: myvote.wi.gov/my-Municipal-Clerk.

The Right to Assistance for Voters with a Disability

- Voters with a disability have the right to assistance with any part of the voting process. That right is protected by federal law.
- ► An August 31 court order in the Carey v. WEC case clarified that voters with a disability, may request assistance with mailing or delivering their ballot from anyone who is not their employer or a representative of their labor union.
- ➤ Voters who do not have a disability can not have assistance delivering their ballot.

Information for your assistor

- ▶ If you ask someone to return your ballot, let your assistor know they may be asked a few questions by the election official.
 - 1. Are you the voter? If not, then:
 - 2. Are you delivering the voter's ballot because the voter has determined that they require assistance returning their ballot due to their disability? If yes, then:
 - 3. Are you someone other than the voter's employer, an agent of that employer, or an officer or agent of the voter's union? If yes, then the ballot can be accepted.
- ► The voter and assistor should not have to fill out any forms or provide proof of disability.

I support people under guardianship. Are they able to vote?

In Wisconsin, a person under guardianship retains the right to vote unless the court expressly removes it.

- If an individual under guardianship is unsure of their right to vote, the Court's decision regarding the right to vote is recorded on a court form called "A Determination and Order on Petition for Guardianship Due to Incompetency." (GN-3170).
- The language in the court order will not say that the person has retained the right to vote; however, a box will be checked if the right has been removed.
- Incompetency for voting purposes can only be determined by a judge. Family members, doctors, or caretakers may not determine that a voter is incompetent to vote.
- If you lose the right to vote due to guardianship, you may petition the court to restore your right to vote. DRW can provide resources:
 - https://disabilityrightswi.org/news/new-guardianship-and-voting-resources/

I am homeless and don't have a permanent address. What should I use as my address for voting?

- ▶ If you are otherwise qualified to vote, Wisconsin law has a provision to protect the right to vote of individuals experiencing homelessness. If you are homeless, you may use a letter from a shelter or other organization providing services to the homeless as proof of residence when registering to vote. It should describe the individual's residence for voting purposes.
- For additional guidance, the Wisconsin Election Commission has a sample letter and a guide for homeless voters on their website at elections.wi.gov/publications/brochures/enabling-homeless-voters.

I live in a nursing home. How do I vote?

- Residents of nursing homes and other congregate setting have the same right to vote as any other citizen unless they have lost that right. Voting is a resident rights issue.
- ► CMS states: Nursing homes should have a plan to ensure residents can exercise their right to vote, whether in-person, by mail, absentee, or other authorized process. If a state has specific programs to enable nursing home residents to vote, the facility should coordinate and engage with those programs, as appropriate.
- Wisconsin's Special Voting Deputy program conducts absentee voting in nursing homes and other qualified facilities. SVDs are supposed to visit a facility twice to conduct in person absentee voting. They may not be able to assist with voter registration.
- Residents may request assistance with registering to vote and with requesting an absentee ballot.
- ► For more information: <u>Absentee Voting in Residential Care Facilities and Retirement</u> Homes (SVD Voting) | Wisconsin Elections Commission

I am living at a psychiatric facility. I want to vote.

- If you are a registered voter, you may request an absentee ballot. In some cases, the resident may choose to certify as an Indefinitely Confined Voter.
- Your address for voting is your last home address not the address of the facility. (note: nursing home and group home residents my choose to use either the facility address or their last home address)
- Your Proof of Residence must your include name and your voting address.
- ▶ If you do not have access to the most forms of Proof of Residence (State ID/drivers license, utility bill, bank statement, etc), any document issued by a governmental entity is acceptable. It must include your full name and the address of your residence for voting.

I have criminal conviction. Can I vote?

Persons convicted of a misdemeanor (except for misdemeanor treason or bribery)

They retain their right to vote - they can vote even if they are in jail or prison, or "on paper" (on probation, parole or extended supervision) for a misdemeanor.

Persons convicted of a felony, treason, or bribery

- They can vote after they have finished their sentence and are "off paper" (off probation, parole or extended supervision). Their right to vote is restored automatically
- If someone has been charged with a felony but not yet convicted, they are eligible to vote.
- If someone has been convicted of a felony but has not been sentenced, they cannot vote.
